

CARRAROIL

POWER LIFE LUB™

Two different types of oils are available:

- **80 W – 90**. Multigrade oil for gearboxes also not synchronized, differentials, power translators, PTOs of agricultural machinery, construction and heavy transport without wet brakes and clutches.
- **UNIVERSAL 80W U.T.T.O.** High-performance lubricant for hydraulic systems, differentials, final drives with wet brakes and clutches for agricultural machinery and construction equipment.

In the following table you will find:

- the technical specs of each lubricant
- the correspondence of Carraro oil with other lubricants on the market
